

***Earth Day...April 22, 2008.***

**Americans buy 28 billion single-serving plastic water bottles every year, and 80% of those end up in landfills. Meeting the nation's demand for bottled water requires more than 1.5 million barrels of oil annually. That's enough oil to fuel 100,000 cars for a year!**

**The Madison County Health Department wants to "GO GREEN" Together in 2008.**

**Going Green Tip: Cut back on the plastic buildup with a reusable water bottle you fill with tap water.**

**Contact your local health department for more information on going green.**
